

FEATURES

- The proportional petrol dispensing valves can handle a variable flow of petrol, proportional to the control signal. Frequently used for blending applications.
- The high quality polyphenylene sulfide piston guarantees a long operating life and a wide temperature range. Hydrocarbon resistant FPM seal for tight shut off
- Explosion proof operator, intended for use in potentially explosive areas, according to Directive ATEX 94/9/EC
- Easy electrical installation by means of the moulded-in supply cable, standard length of 2 meter
- ASCO Numatics components satisfy all relevant EC directives
